MuhammadZain

SUMMARY

Software Engineer with 3+ years of experience in Python automation, backend development, AI/LLM integration, API development, and workflow automation. Skilled in building scalable automation solutions and AI-powered applications.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

COMSATS University Lahore

EXPERIENCE

Ebryx (Pvt) Ltd | Software Engineer

Sep 2025 - Present

- Developed and maintained Titan, a SOC alert analysis platform used by 10+ international MSSPs
- Built and optimized full-stack features using Next.js, Node.js, SQL, and OpenSearch, enabling real-time querying of 100k+ alerts per day.
- Implemented case management and workflow automation, reducing manual analyst effort by 70% and improving threat investigation time.

Tecsofiy | MERN Stack Developer

Oct 2023 - Aug 2025

- Developed scalable full-stack applications using MERN stack, improving system performance.
- Created SEO-friendly websites in Next.js, implementing meta tags, improving search engine rankings.
- Built robust forms with Zod & React Hook Form (99% accuracy) and integrated real-time APIs to boost app efficiency

360 Synergy Tech | React JS Developer

July 2023 - Sep 2023

- Delivered 9+ React.js websites, optimizing state management, performance, and responsiveness for 100% cross-device compatibility.
- Built mobile-first websites using Bootstrap, and Tailwind, ensuring 99% cross-browser compatibility.

PROJECTS

TITAN n8n WORKFLOWS | NODE JS

- Designed end-to-end automation workflows in n8n using built-in and custom nodes to streamline SOC operations.
- Integrated external APIs, databases, and internal services to automate alert handling and data synchronization.
- Improved workflow reliability through error handling, logging, and reusable custom node development.

AUTOMATED ACCESSORS PORTAL | React | Web

- Built a property-owner identification portal for U.S. real estate data, enabling fast lookup of ownership details.
- Used Playwright for automated scraping and Apify plus enrichment APIs to enhance accuracy of owner leads, boosting match rates by 25%.
- Implemented Supabase authentication with custom email and Google sign-in for secure, streamlined user access.

TUTOR EXPERTZ | MERN | Web & Mobile App

- Developed a full stack educational web & mobile app, supporting 5 roles and managing 10,000+ user interactions.
- Created and integrated APIs with React Query, ensuring real-time updates and efficient data fetching for daily users.
- Built an Express.js backend with auth and MongoDB-powered analytics, handling 500,000+ monthly requests with 99% uptime.

VOICE MEET ROOM | VUE

- Built a conferencing app with room-based meetings and reliable P2P connectivity using STUN/TURN servers.
- Added profanity, push-to-talk, mute controls, and real-time profanity filtering, reducing abusive content by ~90%.

PDF EDIT TOOL | NEXT JS

- Built SaaS platform using Next.js, enabling PDF merging, splitting, deleting, and 10+ advanced editing features.
- Engineered a secure, scalable Node.js backend, achieving 99% uptime and handling 1000+ PDF operations monthly.
- Used Amazon S3 Bucket for secure PDF storage, ensuring fast retrieval and handling files efficiently.

MULTI TENANT HYPERMARKET & DISPATCHING | MERN | Web & Mobile App

- Developed a MERN-based multi-tenant hypermarket & dispatching system, enabling 1000+ vendors to create customizable storefronts.
- Built a React Native mobile app, supporting 500+ product listings and ensuring seamless vendor and customer interactions.
- Engineered auto-dispatching, assigning orders to the nearest available rider, reducing delivery time by.
- Designed a vendor admin dashboard, optimizing product management, sales tracking, and order fulfillment.

TECHNICAL SKILLS

Language

Python, Javascript, Node JS, Typescript

Libraries/Framework

React, NEXT, NEST, React Native, Express, Tailwind, Langgraph, Langgraph

Database

Mongo DB, SQL, Supabase, Open Search

Tools

Docker, Claude Code, Codex, Cursor, Playwright, Puppeteer, Selenium

ACHIEVEMENTS

- 2nd Posittion in University FYP
- Supervised Machine Learning | STANFORD ONLINE | 2024
- Introduction to Networks | CISCO | 2024
- Web Frontend | META | 2023
